Services: Owner's Representative

This project involved Owner's Representation for the construction of a new 65,000 sf state-of-the-art educational facility located on a 50 acre wooded campus. The new private upper school will serve gifted children with learning disabilities for grades 7 through 12.

Architectural design for the school was completed by Strollo Architects of Youngstown, Ohio and constructed by Ruhlin Construction Co. of Akron.

"Hiring Mark Horton as our Owner Representative was the best decision we made as we prepared to build our new campus. Their ability to clearly communicate with us on technical matters has made a complex process understandable and we are grateful for the support and guidance they have provided through this challenging process.
