

Fresenius Medical Care

Location: Euclid, Ohio
Design/Build
Opening: 2011

Weston Development Company was selected to develop the newest state of the art facility for a nationally recognized healthcare company. Fresenius Medical Care North America, (FMCNA), based in Boston. They are a major provider of kidney dialysis services and renal care products. Providing dialysis care services, education and support for Chronic Kidney Disease, Fresenius also manufactures and distributes a variety of dialysis products and equipment, including dialysis machines, dialyzers and other dialysis-related supplies. FMCNA is a wholly owned subsidiary of Fresenius Medical Care AG & Co. KGaA, located in Bad Homburg, Germany. The building will be leased and managed by Weston Inc, a commercial and Industrial real estate company.

Weston Development Company purchased 3.11 acres of build to suit land from the City of Euclid, and hired The M.E. Osborne Company as the design/build contractor for the project. The 10,750 square foot building will be built to Fresenius' specifications and house over 25 employees. The ground-breaking was held on November 23, 2010.
